HAMLIN, JONES COUNTY, TEXAS, FRIDAY, MAY 10, 1946

NUMBER 27

## Work Begun On Erecting New School

**DISMANTLING OF OLD SCHOOL  
STARTED TUESDAY AS PLAN  
FOR NEW ONE UNFOLDS**

Actual work at the site of the new \$125,000 elementary school building started Tuesday afternoon. Workman began dismantling the north wing of the old grammar school building as initial move in the construction of a major building project for Hamlin that should be completed by early fall.

Contracting and building firm of T. E. Shelburne & Son, a Hamlin concern, has the work under contract on a fee basis, which arrangement was announced last week by school officials, who indicated that the fee arrangement will mean immediate work on the school which otherwise would have been delayed several weeks.

The old structure, built in 1906, will be torn down, and materials will be utilized in the new building. Almost enough materials can be salvaged for the new school building, contractors state. Work on the new building and dismantling of the old one will be carried on simultaneously. Work will be made on a limited scale until the regular school term is closed on May 23.

A tool house and office are scheduled to be erected this week, and foundations for the new building, which will be started east of the present building, are slated to be laid out within a few days.

Brick cleaning operations will give employment to several men. Much of the lumber will be salvaged from the old structure also.

## Little Damage Done by Lightning Sunday Night

Only slight damage was done Sunday night to the B. Hassen home in North Hamlin, which was struck by lightning during the stormy, rainy spell about 8:15 p. m. Paper on the walls of one room was scorched when the flash penetrated the house. No one was in the room at the time. Members of the family, in an adjoining room, were frightened terribly by the blast.

Two other homes in Hamlin were struck by lightning. Barn of Hollis Madden, who lives four miles south of Hamlin, was damaged in the electrical storm.

## McCoy Brothers Buy Texaco Service Station

J. E. (Runt) and D. A. (Flop) McCoy, brothers, this week purchased the Texaco Service Station north of The Hamlin Herald, from Reagan Myers and Slow Ferguson. They will continue to operate the place under the name of McCoy Brothers Service Station.

Runt recently was discharged from the Army, and Flop has just returned from eight years' service with the Navy.

The brothers are repainting and remodeling the station. Complete line of popular brands of oils will supplement the regular Texaco line, they state.

## JESSIE MYERS WINS FIRST IN COWGIRLS ABILENE CONTESTS

Jessie Myers, Hamlin cowgirl who for the past two years has been making a habit of winning sponsor contests, added another one to her list at Abilene Sunday afternoon when she placed first in the Sheriff's Posse Rodeo. Her award was a beautiful hand-stamped saddle.

Daughter of Mr. and Mrs. R. M. (Reagan) Myers, Jesse, in the strictly time event, had little difficulty in winning with her speedy mount, running a total time of 45.3 seconds for three performances.

Dorothy Stevens of Graham was second with 47 seconds; Jan Dickerson of Big Spring and Hardin-Simmons University, Abilene, was third, with time of 49.2 seconds; and Thena Mae Farr of Seymour was fourth with time of 49.4 seconds.

## NEW WELLS SOUTH OF HAMLIN GETTING SPOTLIGHT FOR OIL

Area oil operators and others were this week focusing their attention on the Snowden No. 2 Carroll well, six miles south of Hamlin, that was drilling below 1,500 feet in a territory that promised cheering prospects for pay.

The Snowden No. 2 Carroll is an offset to the No. 1 Carroll completed for pay several months ago. It is located in the center of the west one-half of Survey No. 3, Goliad School Land League 359.

Snowden No. 1 L. F. Young well, which has been endeavoring to get started for some time, still was having difficulty spudding due to wet weather. The drilling site in a low spot near the center of Section 2 of the Goliad Surveys.

Material for another well is being hauled this week to the George W. Poe tract, one and one-half miles north of the Young site. The test is located in the northeast quarter of Section 1, Goliad School Land League 358. The Snowden No. 1 George W. Poe will be the Snowden interests' fourth well in this area.

Other operations are scheduled for the immediate area within the next several weeks, lease promoters told The Herald this week.

Iron Mountain Oil Company of Oklahoma City still is awaiting arrival of casing for spudding of a test on a 2,000-acre block in the Neinda section.

## Exes and Pied Pipers Play to 6-6 Tie Monday

Exes of Hamlin High School proved Monday night at Pied Piper Field that they haven't forgotten how the old grid game is played. The held the favored 1946 Pied Piper squad to a 6 to 6 tie in a football game that climaxed the spring training period of the charges of Coaches L. B. Howard and Melvin Carlton.

It was a muddy affair, following the week-end rains, and only a small group of spectators witnessed the melee.

John Barnett scored on a 60-yard run in the first quarter for the Exes. Doyle Dean scored for the Pipers in the second period on a pass from Brad Rowland, running from the 12-yard stripe for the score.

Manager Guy Elkins of the Exes announced this week that an exhibition with the Anson squad for 1946 has been matched, date for which will be announced later.

## George LaBaum Fined In Liquor Conviction

George LaBaum, Hamlin laborer, was among three Jones County men convicted of liquor law violations in cases disposed of in Jones County court at Anson Friday morning. Attaches of the Liquor Control Board out of the Abilene office presented the charges against the men.

LaBaum pleaded guilty to possession for sale of 10 pints of whiskey and eight half-pint bottles of rum. His fine was \$122.70, including costs.

## Grain Yields Continue to Look Bright

**HARVESTING EXPECTED TO GET  
UNDERWAY WITHIN THREE  
WEEKS IN TERRITORY**

Without damage from unforeseen causes, the Hamlin area will ship more than 200 carloads of wheat this season. This prediction made four weeks ago by The Herald was strengthened this week as area fields were checked by crop owners and grain buyers.

R. E. Dickson, superintendent of the Spur Experiment Station, who was a Hamlin visitor first of the week, declared that grain in the Hamlin sector is among the best he has seen this year. He stated that the fact the wheat stalk had not developed as full and large as in many years, was no indication here that production of grain and quality will be low.

The Herald publisher has talked to a number of producers who live west of Hamlin who declared they will harvest as much as 25 bushels of wheat per acre. The average per acre yield will be around 12 to 15 bushels, however.

Early wheat will be ready to harvest as soon as the weather clears and dries the ground to permit combines in the field, but harvesting generally will not get underway for about three or four weeks.

Amp facilities for handling grain in Hamlin will be ready, it is indicated by a survey of loading and weighing units. No difficulty is expected in securing railroad cars for handling the grain, as a short crop on the Plains of Texas will require less than the usual number of cars for shipments in that region.

## Softball Teams to Be Organized by Jaycee For Kids and Others

Softball games are on tap for sports enthusiasts of the Hamlin area soon, according to officials of the Hamlin Junior Chamber of Commerce, which will sponsor two softball leagues.

Teams of boys from 13 to 17 years of age are slated for organization first as part of an activities program for youngsters of the town this summer. Five or six teams are suggested by the Jaycees, to be sponsored by business houses that will buy T shirts and caps for the boys.

Another league of several grown-up teams will be started soon. Softball games are projected for two each evening at the city ball park. Jaycee members invite conferences with groups desiring to participate in the softball promotion.

Brad Rowland is assisting Coaches L. B. Howard and Melvin Carlton in working with the teams.

## HAMLIN FUTURE FARMERS KEEP WINNING PACE BY TAKING RIBBONS AT ROTAN SHOW

Hamlin Future Farmers of America had another field day at an area stock show Friday. True to the form established several months ago, the boys' entries carried away prize money as "easy as pie" at the eight-county show at Rotan last week-end sponsored by the Fisher County Dairy Cattle Breeders Association.

Of the five animal entries made four of them placed in the money. The Hamlin FFA judging team topped first place in livestock judging when they scored 1,680 points out of a possible 2,100 tallies. The team was composed of Kenneth Holloway, Weldon Townsend and Callens Gorge. Alternates were Bobby Caldwell and James Rodgers.

Other teams who placed were: Sweetwater FFA, second; the Jones County 4-H Club, third; Roby FFA, fourth; and Hobbs FFA, fifth.

In individual judging Kenneth Holloway tied with Gaulker of Sweet-

## SALE OF VOUCHERS TO RAISE FUND FOR STADIUM PROJECT

Sale of interest-bearing vouchers in \$10 denominations for financing installation of additional dressing rooms at the Pied Piper Stadium in Southwest Hamlin was begun this week by sports minded citizens. The project, approved by the Hamlin Board of Education, proposes to sell 120 of the \$10 vouchers to raise \$1,200 for the project. The vouchers are slated to be paid off by January 1, 1947, with funds from the Hamlin High School Athletic Association.

Superintendent I. R. Huchingson declares that such a plan of financing similar projects has worked successfully in other schools, including the Roscoe High School, his former superintendency location.

School officials point out that a room at the school building, four blocks away, has been used previously for suiting out football boys. This room is much needed now for classroom work.

The addition at the stadium would provide showers, dressing room facilities and storage room for football equipment at the stadium.

## WORKMEN START ON HIGHWAY JOB NEAR MCCAULLEY

As weather permitted this week, workmen were busy on the Hamlin-McCauley-Sylvester highway project southwest of this place.

About 30 workmen for the contractor, Hugh McMillan of El Paso, were working northeast from the overpass on Highway 80 (the Roby to Anson route) toward McCauley this week. Grading was well underway on an 80-foot right-of-way leading up the Santa Fe Railway tracks toward Sylvester.

The routing from the overpass to McCauley is a new roadbed that will cut the distance between the overpass to McCauley by nearly a mile. Most of the other right-of-way from McCauley toward Hamlin has been laid out by having fences moved back. Two or three jogs in the present routing northeast of McCauley will be straightened out, and the highway will generally follow the railroad right-of-way into Hamlin.

Machinery for the highway project has been located at the transient labor camp in Southwest Hamlin.

## Wise Chapel People to Discuss School Matters

People of the Wise Chapel community are urged by school leaders of the community to attend a conference at the Wise Chapel School Friday, May 8, at 8:00 o'clock p. m. when school matters affecting the territory will be discussed.

Members of the Hamlin Board of Trustees have been invited to attend and take part in the discussions.

## More Rains in Area Brighten Crop View

### BAPTIST SPEAKER

Occupying the pulpit of the Hamlin First Baptist Church for the next two Sundays will be Rev. William Weeks of Abilene, above. A native of England, Rev. Weeks spent seven years in South American states as a missionary. Pastor John H. Osteen of the local church will be at Southern Baptist Convention sessions at Miami, Florida.

## IMPROVEMENTS AT HAMLIN METHODIST CHURCH FINISHED

Project of considerable improvement has been underway at the First Methodist Church at Hamlin, Pastor E. L. Yeats states.

All the interior walls, ceiling and facings of opening have been decorated by painters. The ceiling has been painted an off-white with slight tone of blue, and the walls of a dull white.

Art glass windows have been installed in major windows of the structure. Bible scenes are depicted in the windows. A scene of the resurrection of Christ is reproduced in a special window behind the pulpit stand. The windows cost \$2,200.

Two air conditioners have been installed on the roof of the church. Each with capacity of 10,000 cubic feet per minute of washed air, the church will be made comfortable on the warmest day, church officials believe.

## Bomber Units Will Be On Display Thursday

Cut-away of a B-29 bomber engine, a B-29 engineers' panel and an auxiliary power plant of a big Army bomber will be among exhibits to be displayed by the Career Caravan in Hamlin next Thursday. The caravan is sponsored by the Clovis Army Air Field recruiting team.

A program will be given by members of the group, including combat returnees of the recent world war, in the Hamlin High School auditorium Thursday morning at 11:15 at a student assembly. The public is invited to hear the program.

Remainder of the day the special caravan will be on display in front of the post office for public inspection, Clovis AAF officials state.

## American Legion Will Host Barbecue May 20

One of those typical Joe Culbertson barbecues will be enjoyed at the city park, south of the Pied Piper Stadium on the evening of Monday, May 20, it was announced this week by officials of the Hamlin Keefer-Patterson American Legion Post. Barbecue with all the trimmings will be featured when festivities get underway at 7:00 o'clock.

All ex-service men of all wars and their ladies are invited to attend the gathering, Legion officials declare.

**TOTAL OF OVER FOUR INCHES  
FALLS WITHIN EIGHT-DAY  
PERIOD OVER REGION**

This is getting to be a rainy country! And a month ago we were beginning to wonder if it were ever going to rain again in the Hamlin territory.

Following precipitation of nearly two inches at Hamlin the first of the week, Old Jupiter Pluvius made a call-back first of this week and let the country almost soggy with nearly two inches more of moisture. Official reading by J. M. Rountree, Hamlin city water superintendent, Sunday night and .17 of an inch gave the area 1.68 inches of rain Sunday night and .70 of an inch Monday night.

With the 1.85 inches previously reported for preceding week, total rainfall for the nine-day period was 4.30 inches. Rainfall for the year, including these recent rains, amounted to 6.43 inches, according to Rountree.

Rainfall extended several miles each way from Hamlin. Stamford received a sprinkle Sunday night and .34 of an inch Monday night. Anson got a good rain and some hail Sunday night and about an inch Monday night. Little rain fell at Aspermont. Roby and Rotan received heavy rains Sunday and Monday nights. Water was still standing in many fields in the area Wednesday.

Grain was greatly benefitted by the fall, in spite of the fact that much wheat will be ready for harvest within the next three weeks. Row crops that were up will benefit. Part of crops that were planted before the rain will have to be replanted because of heavy washes over the seed resulting from hard rainfall. Most farmers had not planted row crops, and are now awaiting dry weather in order to put seed in the ground.

The new city lake, south of Hamlin, had caught lots of water during the recent rains. Original three weeks ago about 50 inches below the spillway, the lake level has risen to within 13 inches of the spillway. This is about the same level the lake registered this time last year, Rountree stated.

## Four Hamlin Lions Go To District Convention Held At Breckenridge

Four Hamlin Lions Club members attended the annual convention of District 2-E, Lions International, at Breckenridge Sunday and Monday. President Art Carmichael was accompanied by W. L. Boyd Jr., Henry Albritton and Jim Howard King.

Brownwood was selected Monday evening at site for the 1947 convention.

R. E. Gracey, Roscoe stockman and implement dealer, was named district governor by a vote of 209 to 70 over Olin B. Culbertson of Vernon, brother of Joe L. Culbertson of Hamlin.

Banquet honoring the new governor, who succeeds Dr. Ernest R. Amons of Fort Worth, climaxed the two-day meeting Monday night. The principal speaker was Fred W. Smith of Ventura, California, second vice president of Lions International.

## Grammar School Grid Team Defeats Merkel

Future Pied Piper footballers were "in the pink" Tuesday night when the Grammar School squad defeated a strong Merkel team 13 to 7 at Pied Piper Stadium before a good sized crowd.

The locals scored in the first and third quarters, and Joe Allen Dean kicked the extra point after the second score. Merkel scored in the fourth stanza.

The future Pipers will go to Merkel Saturday night for a return game and will play the Roby squad here Tuesday night in a return bout. Hamlin lost to Roby there last week by an 18 to 2 count.

### Surprise Birthday Party Honors M. P. May

Seventy-five years of living was celebrated by M. P. May, pioneer Hamlin business man, Friday when he was the central figure in a surprise informal birthday celebration at his home.

During a brief absence from his home, a number of old-timer friends were invited by other members of his family to the house. Upon his return home his friends and family surprised him with many birthday remembrances and best wishes for many more happy birthdays.

The affair was planned by his two daughters, Mrs. C. C. Rister of Norman, Oklahoma, and Mrs. J. Frank Johnson of Rotan. Sons, Tate May of Hamlin and Bob May of Colorado City and other relatives were present for the happy gathering.

### Camp Fire Counselors Attend Stamford Meet

Mrs. Gordon Bennett, Mrs. O. D. Roland and Mrs. M. T. Hudson, attended an area Camp Fire Girls meeting at Stamford Tuesday afternoon as representatives of the four troops of girls in Hamlin. Mrs. Fred Stockdale, area council executive, was in charge of the gathering, which was attended by counselors of troops in eight counties of this area.

Details of plans for the annual Camp Fire Girls summer camp were discussed at the meeting. The camp will be conducted in two periods in May and June near Lueders in the southeastern corner of Jones County. Probably 40 to 50 Hamlin girls will attend the camp.

### Date for Ordering Pineapples Closes Soon

Marketing committee of the Jones County Home Demonstration Council states that persons interested in buying pineapples in cooperative orders this year must get group orders representing six or more families (including six dozen or more pineapple) and report to the marketing chairman, Mrs. H. F. Brigham, Stamford, Route 3, by Friday, May 10.

No individual orders are to be taken, and persons interested in this program must organize their own groups. Additional amounts may be added to orders already turned in up to May 10. As present orders stand there are not enough to justify a truckload, according to Hannah Nabors, county home demonstration agent.

### Gay Nineties Motif Used At Junior-Senior Fete

In a gay nineties setting in the banquet room of the First Methodist Church Friday evening junior class members of Hamlin High School honored the senior class with the annual banquet.

Blue and gold, class colors, were used in decorations, and spring flowers trailed down the center of each table with blue candles used profusely throughout the room. Programs were in the shape of top hats. White favors were tiny good luck horseshoes tied with blue.

The dinner was served by 18 sophomore girls, who were dressed as Flora-Dora girls with full skirts, black stockings, ribbons around their necks with a rose in the knot, and their hair piled high to resemble the girls of the gay ninety period.

Menu consisted of: Sip o' the little brown jug, pig in a poke, golden spikes with Flora-Dora girls jems, Jim Brady's 10-k diamonds, Lillian Russell salad, Casey's strawberry blond, sip o' the old oaken bucket.

Program of the gay affair was as follows:

Diamond Jim Brady, master of ceremonies; "Hail, Hail! The Gang's All Here" (welcome), Bobby Crowley; "For He's a Jolly Good Fellow" (response), Doyle Dean; "Long, Long Ago" (class history), Margaret Ryan; Barber Shop Chorus, Joe Clements, Brad Rowland, Johnny Steele, Jerry Waggoner, Joe Weir and Diane Carlton; "Wait Till the Clouds Roll By" (prophecy), Jane Adams; "Whispering" (will), Patsy Fletcher; "Bicycle Built for Two," Elaine Kite.

The program was concluded by the presentation of silver compotes by the junior class to the sponsors, Mrs. Holly Toler and Mrs. J. E. Simmons.

### Hamlin Trio Attends Sorority Gathering

Margarette Nobles, Mrs. C. F. Butcher and Mrs. Stanley Carmichael went to an area council meeting of the Beta Sigma Phi Sorority at Midland Sunday.

Festivities for the group began at a luncheon in the crystal ballroom of the Scarborough Hotel. After the luncheon, officers for the area were elected. Next meeting will be held in Lubbock, local attendants state.

Miss Nobles rendered two inspirational readings on the program at the luncheon.

### Gift Shower Given For Mrs. Billy Calhoun

Mrs. Billy Calhoun, nee Mary Jo Sells, was honored at a miscellaneous gift shower Monday afternoon at the Celotex club house.

Mrs. Toby Waggoner directed an interesting program. Sandra Kay Polk and Beth Ann Waggoner sang "Two Little Girls," accompanied at the piano by Mrs. Waggoner.

Hostesses were Mmes. Henry Marchman, Charles Polk, Toby Waggoner and John Riddle.

About 50 registered and sent gifts. Refreshments were served after the attendants viewed the gifts.

### McCaulley Women Hear Mother Program

Meeting in the home of Mrs. LeRoy Prather, the McCaulley Home Demonstration Club featured a program on "Mother" last week. Mrs. Omar Prather, president, presided.

After a brief business session, the president introduced the speaker for the afternoon, Mrs. J. A. Jackson, who brought a unique and touching message. She paid special tribute to our club mother, Mrs. W. M. Fancher, whom we all know and love, and presented her a lovely gift of cologne. Following this was a round table discussion on how best to spend Mother's Day.

Tasty refreshments were served to Mmes. Omar Prather, L. Boyd, Ray Maberry, J. A. Jackson, Glen Henderson, J. H. Mustain, Fred Hemphill, Joe Miers, George Darden, C. A. McHone, W. M. Fancher, R. Perryman, J. W. Fancher, Rufus Herbst, Pud Lawliss, Bill Fancher, LeRoy Prather and Hallie R. McFatter.—Reporter.

### How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion,\* thus help build resistance for the "time" to come.

2 Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

### Tanda and Tawanda Girls Pass New Ranks

The Tawanda and Tawanda Camp Fire Girls met Wednesday afternoon for a council fire.

Two girls passed the Trail Seekers rank: Barbara Turner and Oleta Kite. Ten passed the Wood Gatherers rank: Jo Ann Johnson, June

Gillis, Jean Bevels, Kay Bessire, Doris Rogers, Sue Bledsoe, LaNell Coltharp, LaVon Stewart, Elizabeth White and Vannie B. Huling.

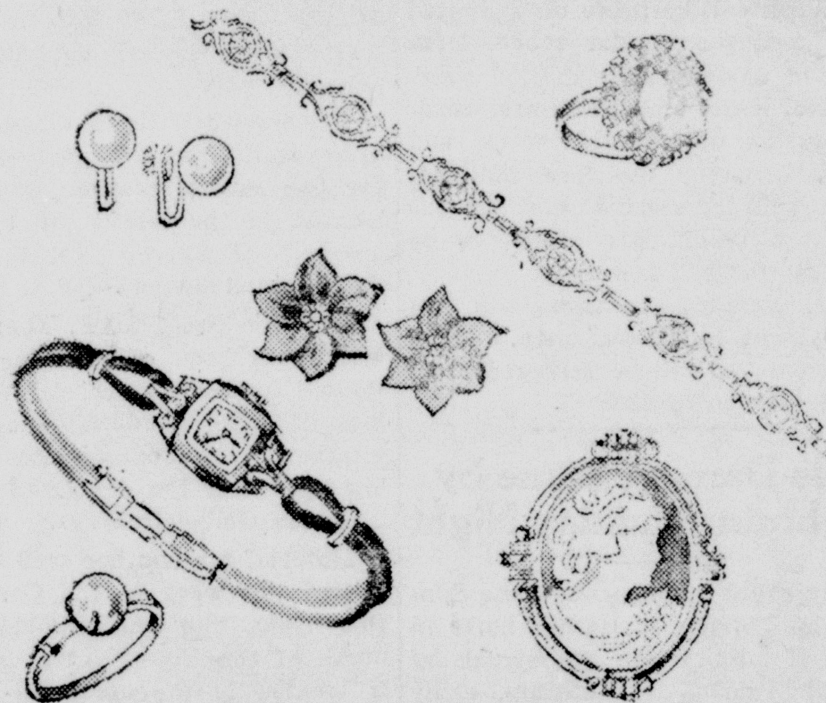

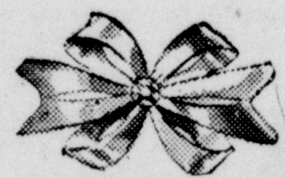

Wohedo candles were lighted and extinguished. The group sang songs and repeated the Wood Gatherers' pledge as climax of the meeting.

Phone 241 and tell us your news.

Mother... sweetest little woman in the world! Of course, she won't be expecting gifts, but a remembrance from our store will be thoroughly appreciated—gifts she probably wouldn't buy for herself. Give her a piece of Jewelry!

# OMAR BURLESON GIVES PLATFORM IN HIS RACE FOR CONGRESS FROM 17TH DISTRICT

Omar Burleson of Anson, candidate for Congress from the 17th District of Texas, has issued the following statement which he says will constitute the basis of his platform:

Two years in Washington, D. C., in a position which afforded direct daily contact with Congress, convinces me that reform in congressional procedure is necessary to meet the exigencies of our time. The committee system has pyramided itself until it is cumbersome and octopus-like in its attempt at legislation. Further observation on the part of the entire nation shows us to be strangled in bureau and department directives, orders and regulations which are tantamount to law. It is physically impossible for Congress, the source from which all law should emanate, to even intelligently become familiar with the provisions of all orders, regulations and directives issued.

Experience gained as an agent of the FBI opened to me the strength and the weaknesses of our security system and federal law enforcement. Apathy toward national security in peace-time is the force which would close the barn door after the horse has fled. Why not find out what other nations are doing before they

are ready to do it? An idealistic attitude on the part of this country in the past has caused untold suffering.

As a former county judge, I believe I have an understanding of local and state government which should give me insight into the continuous problems arising. Serving as chairman of the Texas Welfare Association, I naturally became familiar with our welfare program at its inception. Comparative progress has been made, but there must be work and understanding to obtain maximum benefits.

As a former member of the Freight Rates Equality Federation, I became familiar with the inequities existing in rates between the industrial Northeast and the agricultural South and Southwest. The tariff issue is one of the oldest political abuses of this nation, and the greatest opportunity of our existence is upon us to secure a protected market for our products. Farm born and a farm owner, I think I have experienced those problems common to the average farmer. The farmer and rancher have been heard in Washington; he was saved from ruin by the farm program. He should be heard from now on in matters furthering the program, in protecting his market, and in receiving the benefit of adjusted freight rates.

Three years' service in the U. S. Navy in several parts of the world should have given me an understanding of the veteran and his interest in life.

Predicated upon the foregoing, I offer the following as the basis of my platform:

- 1.—Reduce the 48 standing committees of the House of Representatives to at least half and provide expert and specialized sources of information for regular open hearing in order that legislation may be expeditiously handled and that the public may know what transpires in those committees. Likewise reduce the 33 standing committees in the Senate for a like purpose.
- 2.—Provide the strongest internal security measures for counter espionage and protection against sabotage; provide espionage operation and give latitude to the FBI and our other intelligence services to determine the

actions and policies in foreign countries; provide stringent measures to protect the confidences of this country against those elements inimical to it.

- 3.—Return to the states their just rights and responsibilities. But in any program, whether it be education, social security, farm or other worthwhile enterprise in which the federal government participates with funds, federal control should not attach and no obligation upon the state should be imposed.
- 4.—Place full faith and confidence in the UNO. Although it is limited by reason of the veto power, it is our greatest hope for world peace.
- 5.—If compulsory military training is enacted into law, determine the feasibility and practicability of administering the program through our senior and junior colleges, with specialized vocational training for those not candidates for regular college courses, in order that the youth's education may not be interrupted and that he may be brought under more favorable moral influences.
- 6.—Remove regulations, orders and directives from private business as rapidly as possible commensurate with the general welfare.
- 7.—Opposed to the theory and practice of socialization and believe that an offer of federal controls in private business is an offer of a "mess of pottage" for individual liberty.
- 8.—Subscribe to the principle that no individual or group should be allowed to usurp the power of the majority.
- 9.—Insure equality and uniformity of pensions and other social security benefits and work for a more economical administration.
- 10.—It is not enough to simply understand the veterans' rights in matters of hospitalization, rehabilitation, education and disability compensations—it is necessary to understand to veteran himself. I have that understanding.
- 11.—Equality should be obtained between the industrial Northeast and the agricultural South and Southwest by adjustment of discriminatory freight rates; securing a better protected market for what the farmer and rancher has to sell; parities and subsidies as a temporary measure; further the farm program with expansion of soil conservation, farm-to-market roads and improved farm living.

I believe in the United States of America. I believe in those principles which have made this country great and take them as my political rule and guide. Without changing those principles, our time demands more efficient procedure and faster moving operation. A reorganization of our committee system, along with placing authority of law where it belongs by abolishing needless bureaus, is the greatest step toward that accomplishment.

The next years will be crucial. They will require the most careful efforts and judgment on the part of those who represent us in Congress. This definite promise I make you: To give unstintingly of my time, my energies and my talents to meet every responsibility with courage and determination; to exercise my best judgment and to account to you for my actions.

**Repeat Performance.**

The diner, who had done himself extremely well, called for manager of the restaurant.

"Do you know," he asked genially, "that I dined here five years ago, and you had me thrown out because I couldn't pay?"

"Indeed, sir?" laughed the manager. "Well, well; please accept my apologies."

"Don't mention it," laughed the diner. "Do it again."

## VACANT LOTS DO NOT BUILD A CITY

Yes, we'll repeat what the heading of this article says: Vacant lots do not build a city! Of course, we are referring to numerous pieces of property within the Hamlin city limits that have laid out idly for years, and which will continue to lay out until a concerted effort at collecting delinquent taxes on them is made by city and school authorities.

Not only is it unfair for home owners to have to pay taxes regularly—oftentimes at a sacrifice—on their residences, then to permit some out-of-city owner of vacant lots next door to go for years and never pay a cent; but the taxing agency loses additional tentative revenue that would be produced by improvements that would be made if prospective builders could buy the property. Many desirable lots would be “snapped up” fast if the taxing agencies would sell the property for taxes.

Despite the ballyhoo given California, we wouldn't trade Texas for the Sunshine State any time. But California does keep its tax rolls clean. Any time a piece of property's tax becomes three years delinquent, the property is automatically offered for sale for the taxes. We need a little California business principles all over our grand state of Texas.

## WORLD IS SWEETER BECAUSE OF MOTHERS

Whistler's mother probably has been more publicized than any other noble woman who has lived with the possible exception of Mary, the mother of Jesus Christ. The great painter did not cherish his mother more than millions of others, but he had the talent of painting into her likeness many of the noble characteristics which many of the rest of world could not.

As we approach Mother's Day, which falls on the second Sunday in May, this week-end, millions of sons and daughters in America will honor those who gave them birth—some by gifts, some by more-than-usual expressions of appreciation. Others, whose mothers no longer bring joy and cheer to the world, will honor their mothers' memory.

We remember a little story that illustrates the lack of appreciation which so many of the present generation have for their mothers. It runs: A lad, rushing into the house from play one day with a young friend, backed up to his mother and asked that she patch the seat of his pants. The mother smiled as she lovingly made the repair, no doubt caressing the youngster as she sewed. The task finished, the son thanked her as the playmates left the room. On the outside, the visiting boy asked who the woman was. When told by his friend it was his mother, he asked, “Why did you thank her, then?”

Remember mother on her day Sunday! She's worth all your attentions and expressions of love.

## RUSSIA CONDUCTS A GAME OF BLUFF

Why does our government tremble and shiver whenever it hears the word “Russia”? Do a little figuring and you will find that the “Big Bear” has “shot his bolt” for a long time to come. No nation can take the terrible punishment which Russia did and still possess one-half the military power with which the world carelessly credits her.

Before World War I, the Russian population was estimated at around 170,000,000. That war cost her 5,000,000 of her best. The Communist regime then supposedly got rid of 18,000,000 shopkeepers, farm owners and aristocrats.

Then World War II comes along and again the best of Russia's youth—the shock troops—are killed off. Probably 5,000,000 young men—the breeding stock which mankind must depend upon for physical excellence.

Add to all this terrible loss the ravages of the German advance across Western Russia. Millions upon millions of civilians killed by bombs, by starvation and for reasons known only to the gentle Nazis.

Steel and young manpower are the fundamental essentials of military strength. On February 9 Stalin announced that some time in the future Russia hoped to achieve an annual steel production of 60,000,000 tons. We—even now—produce 30,000,000.

Russia is in no position to fight a major war. She simply hasn't the wherewithal in either young, healthy manpower or material production.—Lytle Hull.

## WHAT CONTEMPORARIES ARE SAYING

WHO WANTS HOSPITAL, JONES COUNTY OR ANSON?

Public reaction in Stamford this week definitely was unfavorable as citizens learned of the proposal to vote bonds to erect a county hospital and health unit at Anson.

For most of them the news of the election came out of a clear sky—they had heard nothing of petitions being circulated to call such an election. Seems that the petitions were circulated primarily in the Anson area. This one fact alone will go a long way to defeat the issue. “Who wants a hospital, Jones County or Anson?” Stamford citizens are asking.

The American always stands ready to advocate that which it believes best for Stamford and Jones County, but at this time, with all facts carefully weighed, we cannot but believe a county hospital would be an unnecessary, expensive luxury. High cost of building, plus the scarcity and inferiority of material, are well known to all. For years, through good times and bad, the county has been without a county hospital—and a few more years can make little difference.

Those sponsoring the proposed \$200,000 bond issue assert that the cost of paying interest and retiring the bonds in 25 years would be only about eight cents per \$100 valuation. But they ignore the fact that county hospitals are far from self-supporting. The very name “county hospital” brings to mind a “charity hospital.” Such hospitals are a continued drain on county finances for upkeep.

Interest alone on the issue would more than endow a room or two at the Stamford Hospital, at the new Hamlin Hospital and at an Abilene hospital. And the maintenance cost of a county hospital could be used to much better advantage on some other county-wide project.

The American suggests that Anson organize a hospital on lines similar to that at Hamlin. Then Jones County could either underwrite the cost of a room or two in each of the three hospitals in the county for charity patients or continue to pay for their care as the occasion arises.—The Stamford American.

There never was any heart truly great and generous that was not also tender and compassionate.—South.

## Tomato Plants Should Be Transplanted Soon For Profitable Growth

Tomato plants for Hamlin section gardeners should be transplanted within the next few days, according to Hannah Nabors, Jones County home demonstration agent.

To counteract retarded growth from dry winds and dry soil, tomato plants should be watered every other day for the first two weeks.

Those buying plants will profit by buying plants that are six to eight inches high, with broad, dark green leaves and thick, partially purple stems.

“In setting out plants, place them one inch deeper in the soil of the row than they were planted in the box or greenhouse,” Miss Nabors said. “Firm soil around the plants and mound slightly to brace stem. Space rows four feet apart and plants three feet apart in the row. It is best to transfer plants to the garden or field on a dark, cloudy day.”

Miss Nabors recommended a plant “starter solution” of two tablespoons of commercial fertilizer in a gallon of water. Apply a pint of this mixture to the soil around each plant and repeat in a week or 10 days.

William E. Gladstone was managing the affairs of an expanding British empire, as prime minister, when he was 83.

TELEPHONE 76

**We're doing all we can to serve people waiting for telephones**

THE urgent job of getting telephone service to those waiting is going ahead. We are nearing a milestone: Soon everyone who needs only a telephone instrument itself to get service will have it. That shortage is about over.

In the first three months of this year we have installed 150,000 new telephones in the five states we serve. This is as many as we would have installed in six months of a normal year.

Although 170,000 new applicants for service during this time kept the waiting list long (223,000 in the Southwest as April began), we now are getting service faster to those waiting longest. A great many of the people waiting for service on V-J Day now have it.

Two big jobs remain:

1. As quickly as we can get it, we are wiring the precision, intricate machinery that handles your calls at the exchange. This takes time and skill. We must do years of work in the next few months.
2. In a great many places we also need outside cable and wire. We plan to have this in and ready when the new equipment in the telephone office is completed. Where we can, we are wiring homes in advance for telephones, ready to connect them the moment we are able.

Meanwhile, we are trying every way we know to s-t-r-e-t-c-h the service... and we are temporarily squeezing in everyone we can with party lines, hooking more telephones to already loaded switchboards and dial equipment, putting disconnected lines back into service faster. If for a while telephone service is not always as fast as you'd like it, it is because of this crowding.

We repeat: The telephone company is doing all it can to provide service for waiting customers. We're looking forward to the day we get in touch with you to arrange the details of installing your telephone.

# BRYANT-LINK COMPANY

SOIL CONSERVATIONIST SAYS COUNTY IS RATED HIGH IN UTILIZING OF RAINFALLS

"Jones County has a high rated in efficiency in the holding of moisture as it falls, but it is not due to acts of the people for the most part," declared R. E. Dickson, superintendent of the Spur Experiment Station, when he spoke Tuesday noon at the regular weekly luncheon of Hamlin Lions Club.

"Eighty-seven per cent of the rain that falls in Jones County is saved for crop and grass production and other uses, Dickson said, but this high percentage is due to nature's gift of flat country over most of the county. This percentage can be raised by continued and expanded practices of soil conservation," the speaker said.

Dickson reported that some of the worst soil practices he had seen in his recent surveys of West Texas regions were visited within five miles of the Hamlin business district. Crop rotation on the Hamlin farm were poor, use of water movements could hardly be purposely planned worse, and implements were used to the poorest advantage, he pointed out.

Urging use of proper soil saving practices, together with efficient

use of modern machinery, Jones County can be made to produce much more in the future, the Spur man declared. We have some of the finest soil in the entire world right here in Texas and Jones County, he pointed out.

Using the Spur Experiment Station as a typical West Texas situation, he told Lions and guests that not a single drop of water had run off the Spur farm in years, and that the practices last year made the experiment farm produce \$107 per acre more in cotton than areas adjacent not properly cared for.

Dickson predicted that the Jones County region would produce a good wheat crop in spite of the spindly stalks that have come as result of little winter and early spring rains.

After demonstrating a chart showing the rainfall by years and months since 1912 at the Spur station, the soil conservationist declared that the fall rains of September through November really are the ones that store up moisture for crops and pastures. His chart revealed that more than one-half of the area's moisture came in the fall months, usually in slow falling, ground-soaking rains.

"Our bewailing the lack of moisture in West Texas reminds me of a story about an old Baptist minister, who said that he doubted our right to even pray for more rain when we do not properly care for the ones we do get."

We read a news item to our son and daughter the other evening, telling about a woman who died while trying on a new dress in a downtown store. Son was very sympathetic. Daughter wanted to know more about the dress.

Hamlin Legionnaires to Attend State Meeting

Several delegates from Hamlin will attend the state American Legion convention, to be held in Mineral Wedds June 8 and 9, Post Commander Joe L. Culbertson of the Keefer Patterson Post at Hamlin announced this week.

Culbertson also announced that new officers will be elected during the next several weeks so that they can be certified before the state convention in August. Fred Smith is adjutant.

Betty Gene Hines of Celotex spent last week visiting her aunt and cousin, Mrs. Ann Garner and Oscar, at Hamlin.

Lubbock Vet Office to Serve Territory Later

Hamlin area veterans who are getting pensions or any other recurring awards from the Veterans Administration should report changes in their addresses to the VA office having his case file, Robert V. Sisson, Lubbock Veterans Administration regional manager, announced this week.

Veterans should not report new addresses to the Treasury Department.

Until the Lubbock regional office is officially activated the West Texas area will continue to be served by regional offices that are presently serving these 81 counties, Sisson pointed out.

THE LAST THOUSAND MILES ARE THE HARDEST

...so keep your car in good condition for safety's sake

YOUR CAR WILL BRING TOP TRADE-IN PRICE IF YOU HAVE IT SERVICED BY YOUR FORD DEALER

●● You probably have driven your present car more miles and years than any other you've ever owned. It still may have a long way to go before you get delivery of a new car. ●● As a car grows older the strain on all parts increases and regular care is more important than ever—not only to keep it rolling and maintain its trade-in value, but to keep it in safe operating condition! ●● You'll find the best way to keep your car in good condition is to bring it "home" regularly—to your Ford dealer—for service. ●● With the return of many veteran mechanics, your Ford dealer can now offer you fast, expert service. He uses genuine Ford parts—to make your car run better, last longer. Remember—Ford's on in front in service, too!

HAMLIN MOTOR COMPANY

Telephone 77

How do you like your Eggs?

Reddy Kilowatt as a trouble-shooter isn't worrying about your eggs—or whether you want 'em soft boiled, fried, scrambled—or if you like eggs at all.

But he is worrying about keeping your electric service flowing along as usual. If that means eggs for your breakfast, okay then, that's why he's up on a storm-lashed power pole.

And, he'll stay there till he gets your line repaired—in spite of hot wires sputtering around him. In spite of rain... lightning... thunder... and a high wind howling, "Watch out, fella, we're gonna hit it again!"

You don't have to send him a check for his trouble. You won't pay any more on your electric bill—to cover his hard, wet work and the materials he uses. Chances are you'll never know a line went out.

This kind of service is routine stuff for Reddy, and the electric company he works for. Storms—the repairs and cost—are all prepared for and handled in a businesslike way. But it isn't an easy job. Keeping your electric service dependable and cheap is the result of careful planning and sound business management.

West Texas Utilities Company

W. H. (HOSS) BARTON

Commissioner, Precinct No. 2:  
E. C. WALDROP  
D. I. (IKE) WEST

## Bert Clarence Hill of Navy Gets Discharge

Bert Clarence Hill, son of Mr. Mrs. L. A. Hill of Route 4, Hamlin, was among Texas men discharged last week from the United States Navy, according to information from the Eighth Naval District branch office of public information, Dallas. Hill, serving as seaman first class in the Navy, saw duty in the Pacific during the war.

## CANNING THIS YEAR IS IMPORTANT AND EQUIPMENT AMPLE

Hamlin area housewives are advised that home canning is just as necessary and just as important this summer as it was any summer during the war, according to Hannah Nabors, county home demonstration agent.

Having known shortages of equipment in the past, many of you are probably asking what supplies will be available. Miss Nabors has given The Herald the following report concerning supplies:

First, the prospect for canners is good. Aluminum is fairly plentiful and the enamelware industry is running well above its pre-war production. With these in good supply, it follows that you may have little trouble in getting a pressure canner or water bath canner.

As for jars and tops, the stocks on hand are greater than at any time during the war or before the war.

Rubber rings will also be plentiful, and they'll probably be better quality rings than during the war. Somewhat more natural rubber is being used in the rings at present.

How about jars? Miss Nabors urges Hamlin housewives to use glass jars for your home canning this year. The supply of tin for cans continues to be scarce, and chances are you will be unable to get tin cans for your home canning.

Sugar supplies remain short, but you can use spare ration stamp No. 9 to get sugar for home canning any time between now and October 31. Only one additional stamp for home canning sugar will be issued this year. But the prospect is that you will be able to get up to 10 pounds of sugar for home canning for each person in your household. With careful planning you can put up a lot of good fruit with that much sugar, Miss Nabors says.

With the need for food in the world so great, every home canner will want to put up her family's share in 1946, Miss Nabors concludes.

## Freedman Brothers Get Discharges Same Day

Two brothers, former Hamlin residents, believe in doing things together.

Gilbert and Eddie Freedman, sons of D. Freedman, former merchant in Hamlin, recently received their discharges from the Army. They arrived in the United States April 8.

The two boys met in Germany after being in the service for some time, and after going through the war met in France at the port of embarkation and made the trip to the U. S. aboard the same boat. They arrived home in the same taxicab.

Eddie has returned to his job at the Navy yard at Philadelphia, Pennsylvania, and Gilbert has entered a partnership with his brother, Sylvian, at Washington, D. C.

Plenty of asphalt brick siding and wall paper. — Paul Bryan Lumber Company. 1c

## WHEW! ALL COTTON!

Well, maybe it's not all cotton, for there's lovely M-G-M starlet Beverly Tyler inside that cotton bag bathing suit. Yes, that's right, the attractive two-piece cotton print bathing suit worn by Miss Tyler was made from one of the cotton bags in which feed is packed. Thousands of American women are discovering that cotton bags are the greatest single source of attractive fabrics for home sewing.

## Bill Scott Named Head H-SU Student Council

In the Hardin-Simmons University student election last week at Abilene Bill Scott of Hamlin was elected president of the Student Council. Scott is the son of Mr. and Mrs. W. C. Scott of Hamlin.

Other officers are, Warren Hultgren, vice president; Margaret Vauter, social chairman; John McLaughlin, councilman place 1; Red Cleveland, councilman place 2; and Betty Dozier, councilman place 3.

Scott is prominent in sports and other school activities at Hardin-Simmons.

## COMMITTEES FOR LEGION'S DRIVE FOR FUNDS ANNOUNCED

Kick-off in the drive to raise funds for the National Americanism Endowment Fund in Jones County will be staged May 20, according to Joe L. Culbertson of Hamlin, county chairman for the campaign. Jones County's quota is \$1,087.

A. L. Steele has been appointed drive chairman for Anson, and J. M. McDonald has been made chairman at Stamford.

Publicity committee for the Jones County campaign has been announced by Culbertson as composed of: Roy Craig, publisher of The Stamford American; G. L. English, publisher of the Stamford Leader; Charles Maness, publisher of the Anson Western-Enterprise; and Wilard Jones, publisher of The Hamlin Herald.

Culbertson declares that the quota for the county amounts to about \$1.50 per member of the three American Legion posts, and the goal will probably be pro rated to the three posts on a per member basis.

## October 5-20 Slated as Dates for Fair of Texas

Dates for the State Fair of Texas at Dallas have been set for October 5 to 20 this year, according to an announcement by R. L. Thornton, president of the fair association. This will be the first exposition since 1941, when the traditional display of Texas agriculture, livestock and industry was discontinued due to wartime restrictions.

Work crews are now preparing the exhibit buildings and grounds in readiness for the time when Dallas will play host to thousands of visitors to the show window of the Southwest.

# CRAWFORD NAMED PRXEY OF HAMLIN MINISTERIAL GROUP

Ministers of Hamlin perfected the organization of the Hamlin Ministerial Alliance when they met Monday afternoon in the study of the First Baptist Church.

Rev. John Osteen brought a short devotional, after which the meeting was turned over to Rev. J. T. Crawford, who acted as presiding chairman.

In business sessions the following officers were elected: Rev. J. T. Crawford of the Church of the Nazarene, president; Rev. Paul Joyner, of Assembly of God Church, vice president; Rev. Lucille Liles, of the Foursquare Church, secretary-treasurer.

Present at the organization meeting were: Rev. Lucille Liles and Rev. Alice Howell of the Foursquare Church; Rev. E. L. Yeats of the First Methodist Church; Rev. Paul Joyner of the Assembly of God Church; Rev. John Osteen of the First Baptist Church; Rev. Donald Berry of the United Pentecostal Church; and Rev. J. T. Crawford of the Church of the Nazarene.

Plans were discussed by the group for a concerted effort by the ministers for the spiritual betterment of Hamlin, officials report.

# Connally Attends Final Rites for Grandfather

D. P. Connally, employe of The Hamlin Herald, attended funeral services for his grandfather, I. L. Connally, 80, retired farmer who died at Haskell Wednesday at his home, held Saturday afternoon at the First Methodist Church in Haskell. Burial was in the Highland Cemetery at Haskell.

A resident of Haskell County for 24 years, Mr. Connally is survived by his wife and seven children, 19 grandchildren and three great-grandchildren.

# Ex-Missionary Will Fill Baptist Church Pulpit

Rev. William Weeks of Abilene will fill the pulpit of the First Baptist Church in Hamlin for the next two Sundays, church officials announced Wednesday. Rev. John Osteen, pastor, will be attending annual sessions of the Southern Baptist Convention at Miami, Florida, convening May 15 to 19. The pastor will return May 22.

Rev. Weeks, a native of England, spent seven years in Chile, Peru and Bolivia as a missionary. He is now teaching and studying at Hardin-Simmons University, Abilene.

**Santa Fe Carloadings Down.**

Santa Fe System carloadings for the week ending April 7, 1946, were 23,166 compared with 25,184 for the same week in 1945. Cars received from connections totaled 10,866 compared with 16,231 for the same week in 1945. Total cars moved were 34,032 compared with 41,415 for the same week in 1945. Santa Fe handled a total of 33,743 cars in the preceding week of this year.

Mr. and Mrs. Tate May and son, James Tate, left Thursday morning for Dallas, where they were to be joined by friends on a trip to Florida for a two-week vacation. They will visit friends and relatives of James Tate, who recently received his discharge from the Army after three years in the service.

Mr. and Mrs. Earl Sampson and children of Celotex returned Monday from Fort Worth. They have been at the bedside of his mother, Mrs. J. F. Sampson of Anson, who is in a Fort Worth hospital.

Mrs. H. O. Cassle Jr. and son, Freddie, of Sweetwater are here visiting Mr. and Mrs. H. O. Cassle Sr.

# HAMLIN SENIORS GO HARDIN-SIMMONS SENIOR DAY EVENT

Twenty-one seniors from Hamlin High School were among the nearly 2,000 guests who were entertained at Hardin-Simmons University at Abilene Saturday marking the revival of annual Senior Day at the institution.

The local delegation included Joe Clements, Ida Frances Robertson, F. W. Poe, Elaine Kite, Elmer Terrell, Jessie Myers, James Sedberry, Margaret McBride, L. B. Howell, Jack Gray, Glenna Fudge, Doyle Ray Dean, Joyce Culbertson, Elizabeth Butcher, Wanda Austin, Naomi Ruth Young, Marvin White, Ben Nie-decken, Peggy Wainscott, Milton Johnson and Wilda Lou Jean.

Sixty-nine Texas communities and two New Mexico towns were represented in the delegations attending the varied program, barbecue and football game which featured the full day of entertainment. Lunch was served to 2,300 persons who made away with most of the 1,500 pounds of beef prepared for the event, and the barbecue, beans, potato salad and pickles were washed down with seven 50-gallon barrels of lemonade.

Six hundred and five of the students who registered plan to attend some college or university, they indicated on individual slips used for the registration, and the most popular subjects for their future are engineering, medicine and business administration.

Billy Joe Burton of Abilene was a guest in the home of his brother, DeFrance Burton, in Hamlin first of the week. Billy Joe has recently received his discharge from the Army Air Corps, with which unit he served in the Panama Canal Zone.

Mr. and Mrs. Marion Mansfield of Celotex are the parents of a seven and one-half pound girl, Sandra Kay, born at the Callan Hospital, Rotan, Saturday morning.

# Get-Together Slated by Jaycee Organization For Thursday Evening

A get-together feast for members and prospective members of Hamlin Junior Chamber of Commerce and their ladies is slated for next Thursday evening, officials of the Jaycee organization announced Wednesday. A picnic will be staged at the city park if weather permits; otherwise, a banquet will be held at the Methodist Church basement. No regular Monday evening meeting of the unit will be held.

Eats for the affair are being arranged by Don Gould, J. C. Turner Jr. and Pat Marlow. Members and others planning to attend are asked to notify the committee by Wednesday so ample provision of food can be made.

Program of entertainment for the get-together is being arranged by Brad Rowland, Bill Shira and Cecil Sellers, who are working with President Charles Prather, Jaycee president.

Mrs. Phyllis Commaack of Lubbock is visiting her parents, Mr. and Mrs. Hibbs Milsap, at Hamlin this week.

## WORLD FOOD CRISIS PRESENTS SITUATION OF GRAVE IMPORTANCE TO ALL PRODUCERS

Farm and ranch people and others need to understand and be ready to meet the world food crisis, a situation of grave importance today. County Home Demonstration Agent Hannah Nabors urges Hamlin area people to cooperate in the program.

"For as the world as a whole, a food crisis has developed which may prove to be the worst in modern times. More people face starvation and even actual death for want of food today than in any war year, and perhaps in all the years combined," according to a recent statement from President Truman.

Herald readers are told that some reasons for the present grave world food problems are:

The 1945 total world food production was 12 per cent per capita below pre-war production. One region where the 1945 level of food production was very low was in continental Europe and North Africa. It was 25 per cent below the pre-war average—nearly as much below as the U. S. was above. The reasons were (1) Much of Europe was a battle field during the part of 1945; (2)

the Mediterranean countries extending through southern and southeastern Europe and North Africa had a severe drought in 1945; (3) possibilities for food production in rural sections of Europe where battles were not fought or armies did not pass were low because livestock had been driven off by the enemy. Few good seeds were available. There were few able-bodied people to labor in the fields. Many men had died in battle. Or they, and many of the women had been forced to work as slave laborers. Or they were thrown in concentration camps. Highways, rail ways and waterways over which food is distributed were destroyed. Or they have been left congested by the war. Trains, trucks and boats needed to move food from the country to the town were destroyed by war.

Following suggestions for meeting the world food crisis are given by the county home demonstration agent, Hannah Nabors:

Eat two-fifths less bread in the next four months. Use potatoes, oatmeal and buckwheat cakes instead of bread. Use other abundant foods keep bread fresh. If it becomes hard, use it in toast, puddings, croquettes, etc.

Eat one-fifth less fat in the next four months.

In preparing and cooking food save the outer leaves and peelings save nutrients and flavors.

Plan and serve better meals. Follow the Texas food standard. Take on your plate just what you need. Eat it all—waste none.

Do better food buying. Don't handle foods. Keep them good. Study labels and food grades. Know and buy good quality foods. Pool or-

## GOVERNOR ASPIRANT

Grover Sellers, 53-year-old attorney general of Texas, has made public his announcement for governor of Texas. "I sincerely believe that my experience and background as a farmer, school teacher, lawyer and public official gives me the training, understanding and vision necessary to honorably serve as governor of Texas," he said.

## New Postage Stamp to Commemorate Veteran

Hamlin region people are interested in the recent announcement that a special postage stamp, showing the honorable discharge button of the United States armed forces, will be issued on May 9 in honor of all veterans of World War II. Announcement was made by Postmaster General Robert E. Hannegan.

The president will purchase the first sheet of the stamps at first-day sale ceremonies at the White House. The stamp will bear the lettering, "Honoring Those Who Have Served."

ders with your neighbors and buy scarce foods not grown locally.

Produce, as far as is possible and practical, the milk, eggs, meat, vegetables, fruits and cereals needed by your family for a good diet daily. Be one of a million Texans to grow a year-round garden of adequate size to meet family needs.

Can, dry, freeze, cure and store a good supply of food.

Keep unprofitable birds culled out of poultry flocks. Eat, can, freeze or market them. Utilize tender and green crops as a source of feed for chickens and turkeys to save grain feed. Use feeders for poultry and livestock that will prevent waste. Feed and market livestock and poultry according to the feed supplies you have available. Don't "over-finish" meat animals.

Maintain milk production without wasting feed. Grow good grazing crops; hay and silage crops, and grain feed.

Take good care of orchards to insure good fruit.

Fight garden, orchard, livestock and poultry insects, parasites, diseases.

Cultivate, fertilize and manage the soil to insure good yields of high quality products.

## EQUIPMENT USED IN CANNING SHOULD BE SAFETY CHECKED

Canning equipment of Hamlin area housewives should be checked and made ready for another canning season, states Hannah Nabors, Jones County home demonstration agent. Assistance in testing pressure cooker gauges and making other cooker repairs will be given during April and May. Miss Nabors gives reasons why cooker gauges should be tested every year as follows:

If the maximum thermometer inside the cooker registers a higher temperature than the gauge registers, there is danger of over-cooking losing liquid, breaking glass when jars are used, or bulging seams when cans are used. In extreme cases the cooker may explode. If the temperature is lower inside the cooker than the gauge registers, there is danger of under-processing of food, which may cause spoilage.

Tentative schedule for holding cooker clinics, where gauges may be tested, is given:

Home demonstration office in Anson from 8:30 to 11:30 a. m. on Saturdays, April 27 and May 11, and also on Monday, April 29, from 3:00 to 5:00 p. m. Dates scheduled for testing in Stamford will be the morning of May 3 and again on May 24. For Hamlin the testing will be done both morning and afternoon May 17. Chambers of Commerce in Stamford and Hamlin will be contacted regarding places for testing centers.

Testing will be done at the schools (or they may be contacted regarding place where testing is to be done) in the following places from 9:00 to 11:30 a. m.: Tuxedo, May 16; Neinda, May 18; Avoca, May 21; Willow Creek, May 22; Carpenter's Gap, May 23; Noodle, May 30; Plainview, May 25; Hawley, May 28; and Lueders, May 29.

The Russian Bear seems to have had a yen for Turkey—out of season.

## COTTON GREMLINS

A post-war gremlin made of cotton is becoming as well known to American children as the original gremlin was to Allied aviators during the war, the National Cotton Council reports. In the photo a host of the friendly cotton gremlins, made from cotton knit socks and stuffed with cotton, surround little Kay Hauser of Los Angeles at California's first toy show.

### Home Agent Releases Pointers on Growing Vegetables in Section

If you are setting tomato plants at the present time, get them off to a good start by watering the plants two or three times during the first week. By mixing two tablespoonsful of commercial fertilizer in a gallon of water and applying one pint of this mixture to the soil around each plant, early and vigorous growth will be promoted, according to Hannah Nabors, county home demonstration agent.

If your plants already have been set out and growth is well started, they should be staked. Make the stakes four feet long and drive them firmly into the ground. In the near future, tie the plants to the stakes to support their rapid upright growth. Concerning other vegetables, Miss Nabors advises Hamlin area citizens not to be in too big a hurry to thin your sweet corn, cucumbers and squash plants. This is also true for leaf lettuce and mustard. Wait until the corn plants are 10 inches in height and you can tell which ones are the most vigorous. This same principle should be applied to all types of thinning. Save the strong ones and pull out the weak. Remember, too, that crowded plants become spindly if left too long competing one against the other.

During the second decade of our life we taste more lustily, hear more sharply, see more acutely and have finer control of our muscular coordinations than during any other decade.

## NEWS NOTES FROM SYLVESTER

MRS. J. M. MONTGOMERY, Correspondent

Sylvester received another nice surprise Sunday evening. Mrs. Wayne Harp and baby and Aubrey Hollis and sons visited Sylvester Monday afternoon.

Mr. and Mrs. Bob Beard and Othy Lee were in Rotan Tuesday. Mr. and Mrs. Woodford Pursley Monahans have been visiting relatives here this week. Mrs. Pursley the former Lorena Gray, daughter of Mr. and Mrs. E. C. Smith.

Mrs. J. J. Nickless has been quite ill at Rotan hospital.

Mr. and Mrs. Cecil Kiser are anticipating the arrival of a son in the Sweetwater Hospital April 29.

Mrs. Reynolds and Mrs. Robinson are in Roby Friday morning.

Mrs. Reynolds and son, Glenell, and relatives this week. Mae is at the switchboard.

Mrs. A. W. Pursley had eight of her children and their families home day. They were Mr. and Mrs. Pursley, Ruth Estelle of Roby, Cadmus Arthur, who is in the city; Mr. and Mrs. Wayne Pursley children of Roby; Mr. and Mrs. Woodford Pursley of Monahans; Mr. Mrs. Jack Pursley and son of Sweetwater; Jewel and Billy Pursley of Graham; Homer and Eldon Wiley, who make their home with their mother; and Mr. and Mrs. Fred Martin of Sweetwater.

Visitors Sunday in the Jack Stone home were Mr. and Mrs. J. B. LaRue, Mrs. C. O. LaRue Sr. of Sweetwater and Mrs. C. O. LaRue Jr. and children of Las Cruces, New Mexico. A memorial service for Albert

Spann, son of Mr. and Mrs. A. L. Spann, is to be held Sunday night at the Methodist Church.

Another nice rain fell here Monday night.

Mrs. Tracy King and children spent Tuesday at Rotan visiting relatives and shopping.

W. O. Swindall and Scott were in Abilene Saturday evening.

Mr. and Mrs. William Nazworth and Roy Mack were in Roby Monday.

Mr. and Mrs. Roy Mauldin of Abilene spent the week-end in the home of Mrs. Mauldin's parents, Mr. and Mrs. W. C. Mitchell.

## Advancements Made By Odayo Group Girls

Odayo group of Camp Fire Girls took rank advancements at the council fire Wednesday of last week in ceremonies presided over by Mrs. Fred Stockdale, area executive of Haskell. All 14 girls of the Odayo group took the rank. Ceremonies were at the girls' hut. About 30 girls took part in the rites, coming from the different groups in Hamlin. Girls taking the Trail Seekers rank, first rank in Camp Fire Girls work, were: Nona White, Glenna Lynn Brewer, Neta June Carter, Kathryn Richey, Janie Dutton, Grovena Sipes, Peggy Jo McCleary and Sammie Ruth Cavitt.

Taknig the Wood Gatherers' rank, second rank, were: Janet Durham, Barbara Flowers, Susanne Hudson, Sue McCrary, Laverne Higdon and Mary Lee Roland.

Mmes. Roy Flowers, Joe McCrary and M. T. Hudson are guardians of the group. They are sponsored by the American Legion Auxiliary.

## Dr. Baker Not to Make Trip.

Word has come to The Herald that Dr. Fred R. Baker, optometrist who has been making monthly visits to Hamlin, is ill and will be unable to make his scheduled call at Hamlin on May 15. The San Angelo doctor has practiced in this area for many years.

## LIONS TO MEET AT Y-6 RANCH TUESDAY IN HEREFORD TOUR

R. E. Dickson, who was presented by his college classmate, Joe Culbertson as "one of the forerunners of modern soil conservation in this part of the country," was speaker at the Hamlin Lions Club's weekly luncheon Tuesday noon at the Morgan Hotel. Dickson traced his work of 22 years with the Spur Experiment Station and gave highlights of progress that had been made in West Texas in soil building practices since he started the work that was looked upon with skepticism by most farmers and ranchers of the region. A most extended article about his talk will be found in another part of today's Herald.

Superintendent of Schools I. R. Huchingson explained a program for financing the addition of new dressing room facilities at the Pied Piper Stadium by sale of \$10 "faith vouchers" which will be redeemed by the Hamlin High School Athletic Association by January 1, 1947, with interest from date of purchase.

It was announced definitely that members of the Lions Club would be visitors next Tuesday noon at the Y-6 Ranch north of Hamlin, when the West Texas Hereford Breeders Association will be staging a noon stop on their tour of Hereford cattle ranches of this section. Lions were urged to go a little early in order to greet members of the entourage.

Starr Inzer and Tarlton Williamson were guests, besides Dickson, at the Tuesday luncheon.

Acting Tail Twister Charles Prather did a nice job of dime collecting. Ambrose Spencer occupied the chair in absence of President Art Carmichael.

## Hamlin Area Crops Are Best.

Joe Culbertson returned home last week from a several-day tour of agricultural regions north and northwest of Hamlin, with the report that the best crops of the state are right here in the Hamlin region—with possible exception of sections where irrigation has been practiced. The crops around Amarillo, Childress and Wichita Falls are poor due to lack of early spring rains.

## Popular Hamlin Girl Rodeo Performer Hurt In Fall From Horse

Jessie Myers, daughter of Mr. and Mrs. R. M. (Reagan) Myers, was painfully injured Monday afternoon when thrown from her prize winning rodeo horse near her home in Northwest Hamlin. Her father, who was with her at the time of the accident, stated that the girl's saddle turned on her mount while the Hamlin girl was practicing riding for show appearances. Jessie struck the ground on her head and right shoulder, and the fall rendered her unconscious.

Rushed to the Stamford Hospital, Jessie was at first believed seriously injured, with possible skull fracture. But after she regained consciousness Tuesday afternoon it developed her injuries were not serious. She was doing well late Wednesday, reports from her home indicated.

The saddle the rodeo performer was using was the prize awarded her Sunday afternoon for first time honors in the Sheriff's Posse Rodeo at Abilene.

Mr. and Mrs. L. E. Hines spent last week at Lamesa with Mrs. Hines' sister, Mrs. Moulton, who is in a hospital recovering from a major operation performed last Tuesday.

## POT-SHOTS FROM McCAULEY

BY GEO DARDEN

D. F. Maberry and son, Luther, have sold 100 head of mixed yearlings to a San Angelo buyer. The calves will be delivered this week and shipped to Kansas to pasture.

A number of McCauley folks attended the Sheriff's Posse Rodeo at Abilene last week. And, no nuff, it was the wildest show we have seen in years.

McCauley was well represented at the West Texas Singing Convention held Sunday at Rotan.

Planting of crops is underway in this community since all the fine rains.

J. A. Jackson was in the Stamford Hospital two days of last week for treatment. Sorry to report that Mr. Jackson isn't doing so well.

Mr. and Mrs. Buddy Gibson plan to erect a grocery and market and filling station on the new highway in McCauley.

All the town cowboys got their chance at a big round-up on the Frank Maberry ranch, south of town, last Tuesday. Cowboy yells could be heard as far as Sylvester.

Town house cats are taking quite a toll among baby chicks around McCauley. Shotguns in the hands of chicken raisers are to some extent slowing down the cats.

Jack Maberry of the U. S. Marines and wife of Newport, Arkansas, visited last week in the home of his parents, Mr. and Mrs. Frank Maberry, at Roby. Also visiting in the Maberry home were Mr. and Mrs. Creed Smith of Odessa. Jack and wife plan to visit Lieutenant and Mrs. W. H. Pickron Jr. in Shreveport, Louisiana, on their way home. Jack left us a year's subscription for The Herald. Thanks, Jack. Sorry we were not at home.

Mr. and Mrs. F. L. Rector attended a birthday party honoring M. P. May on his seventy-fifth birthday at Hamlin Friday night.

J. Bryan Bradbury of Abilene, candidate for Congress, was shaking hands with friends in McCauley one day last week.

Yep, a Texas-bred horse owned by a Texas man won the Kentucky Derby and the richest Derby purse in history. Mr. Kleburg of Kingsville

is the owner. Time was 2.06 3-5 on a muddy track.

Mrs. Oliver Lee underwent major surgery at the Rotan Hospital last week. She is doing nicely at this writing.

Mrs. W. C. Lee plans to visit her son, Bud Lee, at his training station at San Antonio this week. Bud writes that he is going through some rugged training in Uncle Sam's Army.

Mr. and Mrs. Melvin Courtney, Mr. and Mrs. Wayne Webb and Mrs. W. R. Perryman attended the singing convention at Rotan last Sunday.

Just three more weeks of school. The junior play will be staged Thursday night of this week.

Heavy road machinery is in operation on the highway southwest of town, and the right-of-way between Hamlin and McCauley.

A few months ago our government was urging our people to buy bonds, work harder, save food and kill more Germans and Japs. And now this same government is urging our people to eat less bread so that we may send bread to the Germans and Japs in order for them to raise another army. Anyway, that is exactly what they will do if we feed them. It doesn't make sense, neighbor, to kill one day and the next day begin all over again to feed up another generation of cut-throats. Stop feeding them and they will go to work and raise something to eat.

Mr. and Mrs. W. L. (Bus) Howell of San Francisco, brother of Mrs. Will Jackson, visited them last week for the first time in 35 years. Mr. Howell is a linotype operator for the San Francisco Daily Times-Herald.

Visiting over the week-end in the J. A. Jackson home was a nephew, W. R. Jackson, who lives near Clarksville. While here he visited with an uncle, Will Jackson, and cousins, Leo and Kenneth Parker, at Hamlin. Also week-end visitors in the Jim Jackson home were Mrs. Odis Hamilton and daughters of Abernathy.

The Republican party went possum hunting in the South for its new national chairman and turned up with Brazillio Carroll Reese of Tennessee, an anti-labor isolationist congressman who is president of three banks. He has a worse voting record than Senator Bilbo of Mississippi, Senator O'Daniel of Texas and Congressman Rankin of Mississippi—and that's saying a lot.

The United State Senate favors higher home prices. Votes 41 to 33 against ceiling on existing homes. One of those senators voting for real estate profiteers was W. Lee O'Daniel of Texas. In fact, W. Lee was the only Texas Democrat to cast his lot with the profiteers. And he is the old folks' friend. Bah!

Congress is attempting to make the public believe that the OPA has failed. It has not. It has saved the

public billions of dollars. It has kept roofs over the heads of the working man, protecting them from real estate profiteers. It can prevent inflation if Congress will let it. But Congress listens when big money talks.

Mrs. G. W. Martin is quite ill and was rushed to an Abilene hospital Saturday.

### COMMENT NO. 1

There is some whispering about McCauley High School going to consolidate with some larger school. So far as we know it is all rumors and purely bunk. If such a question should arise, the civil war between the North and the South will have been merely child's play in comparison.

McCauley has a good school system. Folks have moved here in recent years for our school. We have recently voted bonds for a gymnasium. Financially, the McCauley School District is in fine shape. It would be a disgrace and a shame to even think of such a move. And there is one thing certain—when we lose our school system, then we lose our post office, our cotton gins, our public spirit, and we might as well fold up and seek greener pastures. A fine community without a school is as dead as Heck.

Some pessimistic people say that the new paved highway through McCauley will spell doom for our town. That's "baloney," too. The road will make our town better. Business will be better. We will live in the heart

of everything—30 miles to Sweetwater, 40 miles to Abilene, 30 miles to Stamford, eight miles to Hamlin, 20 miles to Rotan and 10 miles to the Fisher County capital. Already plans are underway to erect filling stations, grocery stores, etc. all along the highway near what is now McCauley. Let's build a new town, a bigger and finer school, and all pull together for the good of our outstanding community!

It's bull, it's bunk, it's disastrous to even contemplate or think of losing our high school. Many men will die with their boots on before such a thing could come to pass. A house divided against itself cannot stand. A community as fine as ours would not survive without our school. Yep, McCauley will have a bigger and better school—and don't let folks kid you otherwise. Send your high school students to McCauley and watch 'em grow!—A Darden-O-Gram.

A man, however, never gets so old he isn't always in here pinching.

## Archie T. Carson Gets Discharge from Navy

Archie T. Carson of McCauley was among men from the area honorably discharged last Friday from the United States Navy at the Naval Personnel Separation Center at Shoe-maker, Californiat, according to advice from the center to The Herald. Carson served in the Pacific Theater of Operations as a storekeeper first class. He was expected home this week.
